ST. JOSEPH'S COLLEGE, OCTOBER 8, 1921.

NO. 1.

THOUGHTS ON THE OPENING OF SCHOOL.

The opening of school is said to be a time when young boys wish they were men and men wish they were boys. We, however, who are still in the spring-time of life, should feel that it is a time of golden opportunities. It is the all-important moment of our lives. Mother Nature has arranged that the lowliest atom in her great scheme of earth has a function — a work to do; thus man who stands head and shoulders above all else in creation must have a function to perform. It is to fit us for the performance of this duty that we begin our journey on the road to intellectual development.

In the weeks of rest and pleasure during vacation time, the student has permitted his keener mental faculties to lie dormant. But the weeks of quiescence soon pass and he is called to resume his educational pursuits. Through the summer months, the student has been much like the branch of a tree that during the quiescent period stores up its elements for the coming of the bud. The year grows, the bud opens and the blossom radiant and fragrant lifts its heart to the sun and rain, accepting the part it is to play in the life work of the tree. The young man starts on his school career absorbing and storing up his elements. With mental development his character buds, and blossoms in full greatness,—he is a flower of fragrant promise, and the period of his life has begun.

Our ideal of a true gentleman educated according to Christian principles must be acquired now, as of old from contact with the highest exponents and shining examples of Christian truth and education. Thus the professor in priestly garb in the college is essentially a missionary, who never forgets the responsibility he is under as a Christian in guiding and shaping human souls.

It is to acquire these elements of culture, to have our intellect animated by faith, to have the will trained and to gather the precious gems which master-minds pourer upon the paint-

(Continued Page 2, Col. 1.)

DISTRUST.

Self-distrust is the cause of most of our failures. In the assurance of strength there is strength, and they are the weakest, however strong, who have no faith in themselves or their powers.

Bovee.

YELL FOR YOUR TEAM.

By Capt. Linder '22.

When the St. Joe Varsity, Football, Basketball, or Baseball teams trot onto the field or floor, a certain feeling of pride, takes possession of each student. You want your team to win; you would fight to see them win; you would give most anything in the world to help them battle for victory. Your wish can be gratified. All of you have strong lungs. So yell, boys; yell at the top of your voices and with all the strength of your lungs; yell till your voice refuses to utter another sound. Use this means of letting your team know you are for them. Swing your arms and do a war dance, anything to let the men battling for your school know that you are fighting with them. Give them all you have and watch them give their opponents all they have, which we all feel confident will be more than enough. So yell, boys, yell till you are purple in the face; yell till your last spare breath is exhausted. You have a 'yell leader' who will direct you, thus making it possible for you to raise such an united uproar that victory must certainly be ours.

FACULTY CHANGES.

Frs. Linnemann and Spornhauer Take up New Work.

The new Scholastic year found a change among the members of the faculty. The Rev. Alexander Linne-

(Continued Page 2, Col. 1.)

THE NEW CHEER.

New Management — New System.

Former students will immediately recognize a vast change in the publication of the "College Cheer." This improvement was made after much deliberation on the part of the Staff, and we feel that it has come to stay.

We hold the highest form of friendship and good-will towards members of former staffs, yet we gladly turn aside from the course they have all taken in the management of the "Cheer," we even rejoice that the present style and arrangement has been effected. Moreover, we feel that our course has the backing of the students, the faculty, the alumni, and all other readers. We cater to them with the most classy, the most newsy of college papers. We are giving them a publication — "Nec Pluribus Impar" — Not unequal to Many.

Our present and greatest difficulty is to choose a certain feature of the New Cheer and call it the best; for to our minds all features are to be classified under the superlative, — Best. The most striking of these, however, consist in the three columned page, the smaller type, the titles and subtitles. With this arrangement, approximately one thousand words constitute a page.

Other Plans.

In the future the College Cheer will devote the majority of its space to articles of a general newsy and literary nature. Athletics will not be written up in detail, unless the game treated shall have been played away from home. Here again, we feel as tho we are acting in accordance with the general will of the student-body, as there is no advantage in running a 'play for play' article of a game that all have been witness to; consequently, only games that have an unusual interest, and games that have been played away from home will be favored with a particular writing; all others will simply be recorded as briefly but as completely as possible.

Contributions.

Contributions will be welcomed at any time. The Cheer is purely a student's medium and we hope that

(Continued Page 2, Col. 2.)

Thoughts on the Opening of School.
— Continued from Page 1, Col. 1. —

ed page; thus to blossom eventually in a fragrant intellectual flower that we have returned to our Alma Mater. Let us hope that we need not in the winter of life gaze backward with an eye of longing upon the rosy scenes of early years and long for the return of neglected opportunities during our school-days, as one who gazes on his home from the deck of a departing ship which carries him farther and farther away.

Now—now at the opening of school is the time for action. There are so many opportunities that the idler looking on with folded hands is like the fungus on a tree, a useless appendage — a parasite.

Faculty Changes.

— Continued from Page 1, Col. 2. —

mann, C. PP. S., professor and librarian in our school for the past several years, has been released to continue his higher education in Madison University, Madison, Wis.

The Rev. Leo Spornhauer, C. PP. S. former professor of English and Chaplain, goes to the Catholic University, Washington, D. C., to pursue his studies in the classics.

The vacancies caused will be filled by the Revs. John Kostic, C. PP. S., and Eugene Omlor, C. PP. S., newly ordained priests. Rev. Father Landoll, C. PP. S. has assumed the duties of chaplain, while the library will be in charge of Rev. Father Brunswick, C. PP. S.

CHANGE IN CURRICULUM.

Spanish Added to the Course.

Fr. Gerhardstein in Charge.

Our ever progressive Alma Mater, in order to cope with the standards of other institutions has struck out into an entirely new field this semester, by the addition of Spanish to her curriculum.

The necessity of this adoption is self-evident from the large class enrollment. Father Gerhardstein is the professor in charge, having completed his course of preparation, only this summer.

Duties fulfilled are always pleasures to memory.

The New Cheer.

— Continued from Page 1, Col. 3. —

YOU will make use of its columns. Under the present management all articles (those intended for the news, alumni, and witticisms columns, excepted,) will bear the contributor's name and the year of his graduation, or the graduating year of the class to which he belongs.

The Price.

In order to obtain the present style of the Cheer, a heavy expense has been incurred, nevertheless, we, feeling the strain upon the pocket-book during this special era of the H. C. L. have retained the old subscription price of one dollar per annum. This price is within reason. It is not one cent higher than the price of similar publications in many other colleges and universities, and the fact is, it is cheaper than the majority of them.

Thank You!

The Staff wishes to take this opportunity to thank their patrons, especially their advertisers, subscribers, and contributors. May your zeal for the success of our undertaking continue.

MANY LOCAL IMPROVEMENTS.

Organ Installed.

New Lockers a Special Feature.

Literally speaking, the old-students returning this fall had their eyes opened. The reason for this is the general renovations accomplished during the past vacation.

The terazza floors, laid a year ago, in the first and second corridors of the Main Building, were refinished. The class-rooms and dormitories were redecorated, and now present an appearance, entirely new.

The New Organ.

At last our high wrought expectancy of some pleasure, too long deferred has been fulfilled. Our anxious waiting for the melodious strains of the new organ has been transferred into a solemn hush. At the first hearing, every ear was strained to listen and we knelt in solemn ecstasy as from the organ-loft, above, we heard the large voice of this grand instrument peal sonorously through the fragrant incensed air.

The organ is a source of pride to the faculty and to the students of St. Joe. It is one of the most complete instruments for church music in the state; comprising four kinds of tone:

the principal, the flute, the violin, and the reeds. In itself, the organ is an orchestra. This instrument was erected at the cost of \$14,000.00. The old organ which for long and many years has served its purpose will be removed in the near future; after which, we will be entertained with a church concert, comprised of organ and choir.

Complete Wardrobes.

Aside from the installation of the new organ, the repairs made in the basement are the most pleasing to the students. The familiar and time-worn wooden lockers, ever a source of disgust and impending fears, were torn out and replaced by magnificent steel lockers, the latest on the market. Of all their features, the most laudable consist in their spaciousness and general sanitation; their several shelves, hooks, etc. The old wooden floors in the basement also disappeared, and in their place are found terazza floors. The walls and ceilings were also refinished and present an atmosphere of cleanliness and coziness.

New Smoking Quarters.

The southwest corner of the Gymnasium is the new home of the R. J. S. C. Here, too, new floors were laid and the walls and ceilings refinished. The room has dimensions decidedly larger than the former club room, and is being furnished with tables, chairs, periodicals, and other articles which go to make up a real club room. The special feature in the department is the installation of a fan which will constantly keep the room supplied with a quantity of fresh air.

Altho the Club regrets to leave its former location, it nevertheless, gladly concedes this right to the Juniors, whose billiard equipment has been moved to the northwest corner of the same building. By way of remark, we add, that over two hundred dollars were appropriated to this department for improvements. All the tables have been refinished and a good supply of balls and cues placed in stock.

Other Improvements.

The good nuns, who are devoting their entire life for the comforts of this student-body were not forgotten in these timely and elaborate changes. A carbonic-acid refrigerating plant has been installed in the culinary department, which will do much to lessen their steps and worries. The special advantage of this plant consists in its individual department for meats, dairy products, vegetables and fruits. With this system there is no

(Continued Page 5, Col. 2.)

SOCIETIES.

SOCIAL activities play an important part in the every day life of the student. For this reason, several societies have been organized in the college, and offer environment for every possible temperament among the students. The C. L. S. and the Newman Club, for the Senior and Junior respectively, to develop his dramatic ability and inculcate a necessary ease for public discourses that will inevitably follow his scholastic career. There is our Unit of the Catholic Students' Mission Crusade for every Catholic student. Our Holy Name Society prompts us to venerate the sacred articles of our holy Faith; together with the Altar Society for those desiring to edify us during the sacred ceremonies. Then comes the Athletic Association for each and every student, and last, but not least, comes the Raleigh Jolly Smoking Club, for all wishing to enjoy a general good time.

C. L. S.

On Sunday morning, September 18, the C. L. S. held its first meeting of the scholastic year. The election of officers for the first session was the main business. After an extensive ballot the following were elected: Joseph Linder, President; Fred Fehrenbacher, Vice President; Gregory Beckman, Secretary; Francis Boehlein, Treasurer; George Werner, Critic. Messrs. George Spaeth, Joseph Rohling, and Anthony Kasper, comprise the Executive Committee. Thomas Daley was appointed Marshall and Joseph Rohling Stage Manager with Gerald Durkin and Raymond Osterhage as first and second assistants respectively.

The C. L. S. met for the second time on Sunday, September 25. After the installation of the new officers and the admittance of new members, an especially spirited meeting ensued. At the next meeting to be held October 16, Mr. Honan will conduct his first Parliamentary Law class.

N. L. S.

The members of the third classes held their initial meeting Sunday, October 2. The object of the meeting was the election of officers for the ensuing session. The following were elected: Leo Geyer, President; Ralph Mueller, Vice Pres.; Robert Gorman, Secetary; James Hoban, Critic; and John McDonough, Marshall. The Executive Committee is comprised of Arthur Dunn, Ferdinand Hartman, and Eugene Kretchmer.

OUR MISSION UNIT.

During the last session of the past year, the officers in this society enrolled the name of every student in the college. This is truly a wonderful record, as we are one of the few units that can make such a boast, and consequently we prize this highly. Our only regret is that this was not accomplished before May and that such a persistant campaign was absolutely necessary. At times the obstacles encountered almost overcame the cause, and we now still wonder why Catholic young men hesitate to join such a great movement; a movement which has penetrated the atmosphere of every Catholic institution of higher learning, and even very many of our parochial schools. We cannot offer the satisfactory explanation. We are positive that it is not due to the fees, especially so, since these amount to only the small sum of twenty-five cents. The individual will not miss it, but on the other hand, twenty-five thousand quarters mean a great deal toward the propagation of Faith at home and in the Oriental territories. Here are the present conditions in a nut-shell; the Japanese and Chinese are turning from their pagan, barbarous customs, they are thirsting for a religious creed. Our non-Catholic brethren have heard the call and are answering. The Catholic Church has heard the call and is responding. They must have financial support and this is the object of the C. S. M. C. Join this Crusade. Be interested in it. Boost it. It is a cause of "Thy Kingdom Come."

The first meeting of this society was called Sunday, Sept. 25. Election of officers was the principal business before the house. The activities of the new year will be under the direction of Messrs. Robert Ruffing, Pres.; Julian Voskuhl, Vice Pres.; Donald Collins, Secretary; Urban Koenig, Treasurer; Leo Breitenbach, Campaign Manager; and Carl Gerlich, Special Committeeman. The Rev. R. Landoll, C. PP. S., is the Moderator for the coming year.

• • •

"Earnestness is enthusiasm tempered by reason." — Paschal.

ALTAR SOCIETY.

The first of several meetings of the Altar Society, was held Sunday, Sept. 18. The result of the election, their main business that day, follows: Edward Kotter, Pr.; Ralph Moeller, Vice Pres.; John Byrne, Sec.; Russel Scheidler, Critic; and James Gallagher, Marshall. Father Landoll's pre-closing address urged the members to campaign for many new members.

ATHLETIC ASSOCIATION.

The first general meeting of the Athletic Association was held Sunday Sept. 18, in St. Augustine Hall for the purpose of electing officers. Those elected for the first session are: Pres. Joseph Linder, Sec. Anthony Kasper, Treas. Edmund Scheidler. Following this proceeding, the Rev. Director urged the student-body to assist the A. A's Store, whenever possible.

New Tennis Courts are under consideration, the present ones are to be moved to a location, not to be decided upon, until the financial possibilities of experiment with concrete and tarvia courts have been estimated upon.

At the second meeting, held one week later, the A. A. Board consisting of Messrs. George Werner, Herbert Weier, Robert Ruffing, Francis Boehlein, Gerald Durkin, and Paul Greenwell were selected by the Association. Some timely suggestions were offered by the Rev. Director regarding the Yells for the coming season.

R. J. S. C.

On Tuesday, Sept. 20th., the Raleigh Jolly Smoking Club was called to meet for the election of officers and the reception of new members. Gregory Boeckman was the unanimous choice of the society as President. As his assistants, Mr. Boeckman has Joseph Linder, Vice Pres., Francis Boehlein, Sec., James T. Hoban, Marshal.

On the whole it would be a difficult task to make a selection superior to the above, and every club member realizes that he has not misplaced his confidence.

Father Koenn, the Moderator, spoke at length concerning the management of the club and the payment of the incurred debts, and heartily urged the cooperation of all.

Nec Pluribus Impar.

AMONG the hundreds of adages, ever applicable to man and his operations, there is one ever to be foremost in the mind of the character, lacking, to a greater or less degree, in self-confidence, that he may have the necessary assistance, or determination, in producing the mediocre and ordinary results of effort; for, — "Man can do what man has done." But there is another maxim of higher import, a maxim that should be found resting in the heart and mind of every energetic and ambitious youth: — "Nec Pluribus Impar," — the expression of a goal, a position of excellence not unequal to many of the same class. The really red-blooded man is not satisfied with the conditions, generally ranked as "good," he seeks the higher, the more perfect, — the best. Many, indeed, attempt to acquire such a goal, spending years of time, hundreds of dollars, and even life itself; and yet, very few succeed. The chief reason for their failure lies in themselves, inspite of the fact that they were entrapped by flames of intense desires, they lacked the most important instrument; — system. The College Cheer has launched a new movement. We are systematic.

For the Honor of the School.

THE commencement of, or return to studies is indeed a most serious proposition. It is the building of a life's career. According to the pages of the biography or novel, the college boy appears to be the most fanciful of creatures, while, according to these same authorities, his life is one to be envied. Just where and under what conditions this is true, will not be dealt with in this column. We do venture to say, however, that the Catholic College is a strict college, and has for its chief purpose the morals of the students. Subsequent to this is the impartment of intellectual knowledge, and lastly, as a means to this great aim, comes discipline. At St. Joseph's every liberty, which in the judgment of the faculty, does not intrude upon the student's higher purpose here, is extended him. Of all things that may befall a student in Collegeville, one thing is sure, — that he will not receive absent treatment.

In the past years the general decorum of our student-body has been above reproach, and all things went on successfully and smoothly. We expect to do as much this year. The best way to accomplish this is to start RIGHT from the beginning. Seize the opportunity present. Seek efficiency. "Work when you work; play when you play." Keep at it, 'For the Honor of the School.' Success must follow.

A CHAT ON FRIENDSHIP.

Cicero is quoted as saying "They seem to take away the sun from the world who withdraw friendship from life; for we have received nothing better from the immortal gods, nothing more delightful." Just as the splendor, the opulence and the sweetness of countless flowers, whose scarlet, gold and crimson glow and melt into the richest sheen of velvet render miles of pure air redolent with perfume, so does the gentle and friendly spirit present to our minds the loftiest doctrine clothed in all the grandeur of truth.

Friendship and cheerfulness are the best means of bringing friends and keeping them together. We all like to be with a person who is always lively, agreeable and cheerful — who greets you with a hearty clasp of the hand, a bright smile, and a cheery 'Hello!' Such an attitude will write one's name in Kindness, Love, and Good Friendship on the hearts of the thousands you come in contact with, year after year. You will never be forgotten. No; your name, your friendliness, your deeds will be as legible on the hearts you leave behind as the stars on the bow of the evening.

"OUR ORCHARD."

Of the "Old Oaken Bucket"

We have heard quite a lot.

"On the Banks of the Wabash,"

It will never be forgot.

And the "Beautiful Ohio"

Still is sweeping to the sea.

But to me they are nothing

Like our orchard so dear.

Oh! The trees full of apples

Hold for me such a cheer!

And the pleasant walk of maples

Is so handy and so near.

There are fruits sweet and rare,

You can see them in the store.

But they never can compare

With our orchard's big store.

Ripe, rich, red, rosy, and sweet.

Apples to pick and apples to eat.

When the apples are falling,

Their sweet voices I hear;

For the orchard is calling

Sweet and low, sweet and low.

Fresh and sweet, sweet and low;

Oh! The apples at old St. Joe!

G. D. '22.

Prejudice and pique are two elements that move the minority to severe criticism.

FOR YOUNGMEN'S WEAR

WITTICISMS

A visitor, deaf, dumb, and blind, gained admittance into the editor's private sanctum, doing a heap of damage.

Prof. in English. — What was Byrd's main work?"

Kuntz: — "The History of the Dividing Line. The surveying of the line between Virginia and North Carolina."

Bastin, (Just waking up from his deep sleep) "Father, didn't Washington have something to do with that?"

A dramatic triangle is caused by people being on the square.

A new-comer who had been reading some of Whitcomb Riley's poems, returned the work to the librarian, saying: "The readin' is middlin' good, but the spellin' ain't right."

A good way of transportation to the smoking club is by the new Stutz.

Bushkuhl: "Say, Barber, how long before you can shave me?"

Barber: —(Looking at him) "About two years."

A Ford operated by a certain young man from Toledo broke down. Halting a passing roadster he inquired: "Do you know anything about this kind of a car?" "Only a lot of bum jokes," he replied, and drove on.

An ignoramus at the library window after claiming that he had read all the works of Shakespeare, Pope, Milton and Dante, added: "If these fellows publish anything new, don't fail to let me know."

Prof. — "How would you express 'A herd of sleek cattle,' avoiding this expression as the Latin has it?" Student: "A herd of heifers."

We heard that Babe Ruth was entered in the Rensselaer horse races.

Durkin: "How did you spend your first night in the new Dorm?"

Mutter: "Unconscious, most of the time."

Sign in Rensselaer: "Get your shoes shined inside."

Many Local Improvements.

— Continued from Page 2, Col. 3. —

longer the necessity of storing natural ice during the winter season.

Just south of the dairy barn two new barns were erected for the housing of the horses and farm implements.

The improvements in general are estimated at the approximate cost of \$40,000.00, a large sum indeed, yet we feel that these will stand as a lasting improvement to progressive St. Joe.

WHERE QUALITY AND SERVICE COUNT

PAST AND PRESENT.

Reviewing the past year's athletic events, we find that this important side of college life was by no means neglected at St. Joseph's. Baseball, as usual, held the greatest interest for all the students. The diamonds were well occupied by the various leagues. The gridiron was witness to many fast and spirited battles for the pigskin, and the gymnasium resounded with the cheering and yelling of many hotly contested basketball games. The tennis courts were regularly engaged by many contestants.

Concluding from the progress made in the past athletic events, we are safe to judge, that the coming year will be an eventful one. The scenes on the campus suggest that the athletic spirit is much in vogue.

For the first two weeks of the year, favorable weather permitted several baseball games. The first game, played against St. Xavier's Hall, resulted in our victory. Our opponents were doubly unfortunate, namely by losing the game, and secondly, they are the losers of many of their important team-men. For the second game, the new-comers opposed us, giving us a fine display of the resources we have to draw from next spring.

WELCOME FOOTBALL.

Record Team Expected.
Excellent Schedule Arranged.

No game in America holds such an individual attention among the student-body at large as does our inter-collegiate football. There is a reason for its popularity, in that it combines speed, strength, endurance, cleverness and quick thinking with the element of personal contact. The game factors mainly on the team working as a unit and much stress is laid upon its importance. During the years of development, an increasing value was placed on team work, so that today it is as essential to a team's success as is unity, alike on the offensive and defensive. Thus it is that one of the essential duties of the coach is to train

ATHLETICS

the team to work with clocklike precision, to work in unity as one giant man. Every man on the team has the responsibility of the team's success. If each one does his duty in clearing a path for the man carrying the ball or, if the ball is in the opponents' possession, to check them in making gains, the importance of that team as a unit will soon be recognized.

It is the boast of any school to have a good representative team, but to have a good team each individual player has to sacrifice his free time in regular and diligent practice. This is the time for action, every able bodied student should participate in such games; as it requires a certain amount of the 'give and take' spirit which enables the individual to make a better man of himself, physically, morally, and mentally. Alertness and ability to think on the spur of the moment is cooperative with the student's work in the class room.

If you do not feel athletically inclined to give your service and be among the others who are nobly sacrificing their free time, which they might give to another pleasure, to bring glory and renown to their college, at least lend your voice to the affray. Whenever there is a game on the gridiron, show signs of the real football spirit, for if there is anything more encouraging to a football player, it is to know that his school is backing him. Yell in one giant voice as it is the case of the team's success when all are urged to act in one unit.

With eight-letter men St. Joe resumed football training for the new season. Forty-five candidates appeared on the gridiron for practice and more are expected before the close of the season. With these prospects Coach Moore has whipped into shape a record team for St. Joe.

Looking over the new material it seems as though the old-timers will be forced to exert extra effort to re-

tain their former positions. Among the seasoned material we find Captain Joe Linder, stellar end of last year. Bill Flynn, the hard hitting fullback, Herbert Weier, with Willacker and Bruns, three speedy men, together with two old standbys, 'Pop' Greenwell and 'Issy' Mathews, we are ready to set a new record. The present vacant positions will be ably filled by new recruits. The crew is a hard working bunch and several weeks' training and the superior coaching of Mr. Moore ought to put St. Joe on a high standing in football.

Our energetic manager, Mr. Robert H. Ruffing, needs to be complimented upon his arranging a first class schedule including a number of heavier aggregations, than the college played in other seasons.

The St. Joe Varsity Football Team has the permission of the faculty to travel this season. The schedule, incomplete, includes:

Valparaiso, Sat., Oct. 8, at Home.
St. Procopius, Wed. Oct. 19, at St. Pr.
St. Procopius, Sun. Nov. 13, at Home.

Arrangements are also being made with Corby Hall, Notre Dame, and the Culver Military Academy and Franklin College.

SUNDAY'S GAME FAVORABLE.

An interesting practice game between the Rensselaer Independents and St. Joe was staged Oct. 2, on the college gridiron. The contest was merely a preliminary battle, wherein both teams could remedy their weaknesses before playing scheduled games. The final outcome of the fray favored Rensselaer. The town team was composed mainly of veterans, who were much heavier and possessed a practical knowledge of their positions. The St. Joe warriors feel grateful to their opponents for the many useful suggestions offered them. Coach Moore was very much pleased with the spirit shown by the team and is satisfied that St. Joe will give their next opponents a good drubbing. Each individual player deserves credit for the skill with which he handled himself on the gridiron. The seasoned material retained their former

Visit YOUR Store

THE CLOTHING HOUSE OF WILLIAM TRAUB

RENSSELAER, INDIANA

laurels, while the recruits showed up well. George Werner displayed his ability as quarterback and received several forward passes from the full back, Bill Flynn. Joe Linder at left half back was excellent in several line plunges, while his mate, Henry Druffel at right half back made several spectacular end runs. The guarding of Willacker and Wesner was reliable, and the two veteran tackles, Greenwell and Mathew, showed their opponents a good game. The lightning ends, Weier and Bruns, played a stellar game in their position as end men and their ability of safely landing passes. Hoban and Burden held the position of center in good style.

SHAKESPEARE ON FOOTBALL.

Every man must play his post.
— M. of Ven.

Be not too tame. — Hamlet.

But screw your courage to the sticking point
And we'll not fail. — Macbeth.

If I catch him once upon the hip
I'll feed fat the ancient grudge I bear him.
— M. of Ven.

I'm armed and dangers to me are indifferent.
— Julius Caesar

The game's afoot. — Henry V.
Heaven still guards the right.
— Hamlet.

Now set the teeth and stretch the nostrils wide;
Hold hard the breath and bend up every spirit
To his full height. — Henry V.

I am a poor fallen man. — Hamlet.

How now, you tremble and look pale.
— Hamlet.

Ay, there's the rub. — Hamlet.

Oh what a fall was there!
When you and I and all of us fell down.
— Julius Caesar.

There's blood upon thy face.
— Macbeth.

Stand close awhile, for here comes one in haste. — Hamlet.

Confusion here hath wrought her masterpiece.
— Macbeth.
